Terms and conditions

The following terms and conditions apply to the credit you received for Google Cloud products (the "Credit(s)").

The Credit is subject to valid registration and acceptance of an account with Google Cloud and satisfaction of any applicable eligibility requirements including the Google Cloud Platform [Terms of Service](#). You will be responsible for all usage in excess of the Credit and you may not be notified once the Credit is exhausted. The Credit is non-transferable and may not be sold or bartered. The Credit is valid for a limited time only and expires on the date indicated when you receive the applicable Credit code or on such date as designated by Google (in which case the earlier date applies). You may not use the Credit to engage in mining cryptocurrency unless you have obtained Google's written consent, which consent may be revoked by Google in its sole discretion at any time. Google reserves the right to cancel the Credit or change these terms at any time. You are responsible for determining the applicable tax treatment of receiving the Credits and for paying all applicable taxes. Offer void where prohibited by law.

Except for graduate or work-study students participating in an event in their personal capacities, if you are a government employee, including an employee of a public university, public educational institution or state-owned enterprise, you may not use (and you are ineligible to receive) any Credits.

The screenshot shows the Google Cloud Billing console interface. At the top, there's a navigation bar with the Google Cloud logo and a search bar. Below the navigation bar, the 'Billing' section is active, showing '我的帳單帳戶' (My Billing Accounts) and '我的專案' (My Projects). A '建立帳戶' (Create Account) button is visible. The main content area displays a table of existing billing accounts. The table has columns for '帳單帳戶名稱' (Billing Account Name), '帳單帳戶 ID' (Billing Account ID), '狀態' (Status), '過去 30 天的支出' (Spending in the last 30 days), '帳戶類型' (Account Type), '機構組織' (Organization), and '健康狀態檢查' (Health Check). Two accounts are listed, both with a status of '有效' (Valid) and a health check of 1 or 2.

Vertex AI VS. AI Studio

特性	AI Studio (Google AI Studio)	Vertex AI
定位	快速原型設計和實驗	端到端、企業級 AI/ML 平台
目標使用者	開發者新手、AI 研究人員、快速驗證概念使用者	企業開發團隊、資料科學家、ML 工程師
主要功能	快速原型設計、Gemini 模型整合、提示工程、範例程式碼、Google 服務整合	ML 生命週期管理、多種模型支援、強大運算資源、企業級功能、Google Cloud 服務整合
優點	易於使用、快速迭代、免費使用	功能完整強大、高度可擴展、企業級可靠性
限制	功能較基礎、擴展性有限	學習曲線較高、使用成本較高
